Hamlet Essay

[redacted] Ophelia

In the play, *Hamlet*, the character Ophelia is Prince Hamlet's girlfriend and after Hamlet goes crazy and tries to kill Claudius, Polonius and the rest of her family disapprove of her relationship with Hamlet. After Hamlet accidentally stabbed Ophelia's Father **mistaking it for Claudius**, Ophelia starts to have a mental breakdown, **and which** ultimately leads to her death. In the **short story**, "Hamlet," the character Ophelia struggles with her love for Hamlet after he feels that Ophelia betrayed him, her family constantly tells her to leave Hamlet for he is just using you; and finally, Ophelia is not treated the same at her burial after everyone assumes she committed **suicide**.

Kristy Burkart
Because this is the name of a play, it needs to be in italics

Kristy Burkart
Can you think of a stronger title?

Kristy Burkart
This phrase needs to be offset by commas because it is interrupting the flow of the sentence, giving it more information. So, we put commas around it to show that. If I see any more like this, I will highlight it in yellow for you to revise.

Kristy Burkart
Read this out loud. Do you think you need "and" there or will "which" work?

Kristy Burkart
Play - not short story

Kristy Burkart
Let's talk about the thesis: I have read the entire paper, and this reads less like a character analysis of Ophelia and more of a summary of the play/somewhat of a characterization of Hamlet.

To analyze Ophelia's character, think about a word that describes her. What is her role in the play? What does she represent? Finish the sentence, "Ophelia is characterized as _____ in the play by/because/through _____."

Is she a victim of circumstance? A sweet, innocence and easily manipulated character?
